REASONS LOCAL AGENCIES ARE TURNING TO FINANCE ENTERPRISE

Too many of the finance solutions that local agencies rely upon today are generations behind in technology, cumbersome to use and are not integrated with other critical solutions. That's why many agencies are looking to migrate off their current solution and onto CentralSquare Finance Enterprise. Read on to discover five reasons local agencies are turning to Finance Enterprise.

1

Best-Of-Breed Finance Solution

Finance Enterprise is a best-of-breed solution that brings together finance, human resources and payroll capabilities into one, robust system. Everything you need is right there, from the GL, budgeting, AP/AR, purchasing, project and grant management, and so much more.

2

Easy to Use

Finance Enterprise is easy to use and even easier to train on. It has the look and feel of other web-based applications you're familiar with, making navigation a snap. In fact, it's so easy to use that users at one large city trained themselves, saving over 1,000 hours of training.

3

Workspaces Tailored to Your Role

Finance Enterprise provides role-based workspaces and dashboards that display information relevant to each role. If you're a Finance Director, it will organize and display information differently than if you are a Financial Analyst. The result is a more streamlined workspace enabling you to get the information you need faster and improve your productivity.

4

Advanced Analytics and Reporting

Finance Enterprise features all the reporting capabilities you would expect in a finance solution. What sets Finance Enterprise apart is the advanced analytics tools with artificial intelligence built-in. Using these tools, you'll easily create reports the way you want them, transforming the mass of data into meaningful visuals for better decision making.

5

We Know the Public Sector

With over 35 years of experience working with cities, municipalities and county governments across the United States, CentralSquare knows the issues you face each day. That's why nearly 2,000 local governments and public safety agencies in every state trust.
